

One Earth Solar Farm Limited

Section 47(6) Planning Act 2008

Notice of Publication of Statement of Community Consultation

Notice is hereby given that One Earth Solar Farm Ltd (13078087) of Unit 2 Crossways Bicester Road, Kingswood, Aylesbury, England, HP18 0RA (the 'Applicant') has produced a Statement of Community Consultation ('SoCC') in accordance with Section 47(6) of the Planning Act 2008 (the 'Act'). The SoCC has been prepared in respect of a proposed application under section 37 of the Act to the Secretary of State for Energy Security and Net Zero for a Development Consent Order ('DCO').

Overview of One Earth Solar Farm

One Earth Solar Farm would comprise the construction, operation and maintenance, and decommissioning of a ground-mounted solar photovoltaic ('PV') array electricity generating facility and battery energy storage system with a total capacity exceeding 50 megawatts (MW) and import/export connection to the National Electricity Transmission System (the 'Project').

The Project would be located on approximately 1,500 hectares of land within the administrative boundaries of Newark and Sherwood District Council, Bassetlaw District Council, West Lindsey District Council, Lincolnshire County Council, and Nottinghamshire County Council ('the Proposed Site').

Development Consent Order (DCO)

As the Project would generate in excess of 50MW of electrical capacity, it is classed as a Nationally Significant Infrastructure Project under the Act. Accordingly, the Applicant must apply to the Secretary of State for a DCO under the Act.

The DCO would, amongst other things, authorise:

- construction, operation and decommissioning of ground mounted solar PV arrays, inverters, transformers, substations, a Battery Energy Storage System, along with underground cables to connect to the High Marnham substation.
- other infrastructure works including on-site cabling, ancillary buildings such as offices and welfare areas, access tracks, and any other works identified as necessary to enable the Project. There would also be parts of the Proposed Site used for landscaping which would include features such as biodiversity mitigation and enhancement measures, amenity improvements and fencing.
- the compulsory acquisition of land and/or rights and the taking of temporary possession of land.
- the overriding of easements and other rights over or affecting land.
- the application and/or disapplication of legislation relating to the Project.
- such ancillary, incidental and consequential provisions, licences, property rights, permits and consents as are necessary and/or convenient.
- powers to undertake highway improvement works in order to facilitate the construction, operation and decommissioning of the Project.

Environmental Impact Assessment

The Project is an 'EIA (Environmental Impact Assessment) development' for the purposes of the Infrastructure Planning (Environmental Impact Assessment) Regulations 2017 ('EIA Regulations'). The Applicant has therefore produced a Preliminary Environmental Information Report ('PEIR') which contains preliminary information about the likely significant environmental effects of the Project, together with a non-technical summary of this information. Further environmental studies and assessments are being undertaken, and a full Environmental Statement will be produced and submitted with the proposed application.

Community Consultation

The Applicant will commence pre-application consultation on the Project from **29 May 2024** to **9 July 2024**. The purpose of this consultation is to obtain views on the Project ahead of submission of the DCO application.

The Applicant has produced a Statement of Community Consultation ('SoCC') in accordance with section 47 of the Act which explains how the Applicant will consult with the local community and stakeholders about the Project and the PEIR. The SoCC can be viewed free of charge at <https://oneearth solar farm.co.uk/document-library/> , or at the community access locations set out below from 15 May 2024. The consultation will be carried out in accordance with the SoCC.

Consultation Materials

We have developed a variety of materials to provide more information about the Project, including:

- a consultation booklet showing the nature and location of the Project
- a consultation questionnaire to gather feedback on the Project
- the PEIR
- a SoCC which was developed in accordance with section 47 of the Act and explains how we will consult with the community.

The consultation materials will be available in several formats and locations from 29 May 2024 to 9 July 2024. All consultation materials will be available to download online free of charge at <https://oneearth solar farm.co.uk/document-library/> or free of charge on a USB on request using the details in this notice. Printed copies of the consultation booklet, SoCC and questionnaire are available free of charge upon request using the details in this notice. Requests for hard copies of the PEIR will be reviewed on a case-by-case basis, and a fee to cover printing costs (up to a maximum of £750 for one full set of consultation documents) may be charged to the recipient.

Printed copies of consultation materials, including the SoCC, will be available to view at the following community access locations during the consultation period (please check opening times before travelling):
